## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 through 8 and 25, drawn to a method, classified in class 380, subclass 277.
- II. Claim 9 through 16 and 26, drawn to a system, classified in class 700, subclass 1.
- III. Claim 17 through 24 and 27, drawn to computer readable medium, classified in class 206, subclass 710.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I, Group II and Group III are related as method, system and computer readable medium. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the device in Group II can be managed by an entirely different method than that described in Group I. Also, Group III can be used to entirely different information than that produced by Group I or Group II.

Art Unit: 2812

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
